I'm good at.....Connecting with people

I'm bad at...remembering details

The last book I enjoyed reading is.....on Being a people's person by John Maxwell, actually at introduction now

A common misconception of me....that I am too big

The most surprising thing that happened to me is...Founding and Managing Aiducation which is an organization sponsoring bright needy children in the country.

One of my worst childhood fears is.....Inequalities

I wish people would take more notice of.....needy bright students around them

My ideal night out is....at Tsavo National Park

In moments of weakness I.....look at the turning point

In another life I would have been....what I am today

The best age to be...is turning 30 years

The best part of my job.... Presenting a poster at the US

In a nutshell my philosophy is....Given a chance, anyone can do better

My idea of perfect happiness is...Being satisfied and improving the more

Living leaders I most admire are.....Didier Drogba

My greatest achievement is....helping over 500 Bright and needy students to join secondary schools

My greatest regret is....Getting late

Favorite author....Jeffrey Archer

One thing that I would change about myself is....Being punctual

If I was to die in 5 minutes my last words would be....ladies and gentlemen, the world we live in is crazy, you can make the best of it by focusing, concentrating on what you want and you will make, but above all, be happy.
