

Application Form – AI.

A: General Information

First Name Alonzo Greco	Middle Name Morasigan	Surname [REDACTED]		
Place of birth: San Juan City	Sex: <input type="checkbox"/> female <input checked="" type="checkbox"/> male			
Date of birth (dd/mm/yy): 08/02/00	Telephone No: N/A			
Home address: [REDACTED] Marikina City			E-Mail: [REDACTED]	
Name of siblings (if any):			Age:	Profession or year level in school:
1. Brasco Exequiel M. [REDACTED]			11	Grade 6
2. Cassandra Dianthei M. [REDACTED]			9	Grade 4
3.				
4.				
5.				
Name of father: Leonardo T. [REDACTED]		Name of mother: Jocelyn M. [REDACTED]		
Profession of father: Custom's Representative		Profession of mother: Customer Acquisition Specialist		

B: Academic Information

Name of Elementary School: Charis School
Telephone No:
Date graduated from elementary school (month/year): April 2013
Overall rank / honor as of elementary graduation (indicate no. of students in batch): "With high honors" - 31 students

Name of High School: Morikina Science High School

Telephone No: 647-4262

Current year level: Grade 9

Overall rank / honor received during high school (indicate which year level and no. of students in batch):

C: Extracurricular Activities

Please list your current and past extracurricular, community and personal activities and responsibilities.

Organization	Brief description of activities	Period (month / year)
Boy Scout of the Philippines	We serve & help our school especially when we have activities	
Pathfinders Organization (in our school)	It is an organization where we share the word of God to other students	

How do you spend your free time?

I mostly spend my free time playing the guitar. Since I learned playing the instrument, I started to love music. That's why it is mostly what I do when I have time.

D: Essays

Describe how you see yourself 50 years from now. What profession / career do you see yourself in? What would you consider your greatest accomplishments by then? How do you see yourself improving the lives of your family, community and your country?

Please describe in 150 to 200 words what you WOULD LIKE to answer:

As of now, I can see that in the future, I am a successful engineer. Successful, not meaning rich, but successful because I reached my dreams. One day, I dream to be a well-known computer engineer. It's not bad to dream that high. At least, I will give it a try. I don't want to be the greatest of all engineers, but I would like to be the best that I can be. I would like to contribute someday. Making people's lives more easier and to also help conserve the environment. With the knowledge and wisdom that I possess, I would like to use it in helping other people ; even my own country.

I know that challenges might face me in reaching my goals in life, but I know that I can overcome them. I may experience failure and downfall, but I won't give up. I will strive harder everytime I go down. I want to serve as an inspiration to other people, especially to my future children. I want to show them that failure is just a part of success. That there is no gain if no pain. That problems must not hinder you from victory, instead it must bring you to it.

What are your (professional) ambitions, and how will secondary education help you achieve your goals in life (100 to 150 words).

Someday, I would like to be a computer engineer. I want to learn more about computers and programming. This is because I would like to widen my knowledge about these things. Since I was a boy, I had always been amazed with sci-fi movies, documentaries about gadgets technology. That's why one day, I would like to know more about it. I want to learn more on how they work, how they function, even how they are made.

Now, in my current grade level, we are taking lessons on our IT class on how to read codes and different number systems. With the help of these, it would now be much more easier for me to understand the subject in the future.

Which are your favorite subjects and why?

My favorite subjects would be Math Science. This is because these two are challenging for me. They might be hard but I like studying them. I like the thrill of these two subject. That's why they're my favorite

Teacher's Recommendation for

(Name of student) Alonzo Greco M. [REDACTED]

Headmaster's / deputy's / class teacher's recommendation. Please explain why this student is exceptional.

Being Alonzo's grade 8 adviser and teacher in *Edukasyon sa Pagpapalantak*, I believe that he is a potential leader in the future. I observed that he is patient, kind, loyal, cooperative and honest to his teachers and parents. He also excels not only in his studies but also in the Pathfinder's club as a guitarist. I remember last year in our third grading project in ESP8 where our goal is to help the community through tutorials, feed the underweight pupils in elementary schools, sweep the streets in barangay and donate used clothes and canned goods. He helped the barangay in cleaning the streets and tutoring the elementary pupils. This proves that he is a potential leader in the future. That's why I highly recommend ALONZO GRECO MARASIGAN [REDACTED] to be included in your program.

Thank you in advance and more power!
