D: CAREER CHOICE AND ADDITIONAL INFORMATION.

What are your top three career choices and explain why these could be your career(s) of your choice:

1. My first career of choice is to be a doctor by profession. because I want to be the first doctor in finding the cure of HIV/AIDS. Actually as I visit the hospital, I admire the doctors. I hoped one day I will be like them and cure people without payment especially the needy and the old.

2. Other than being a doctor I would like to be a lawyer. I will stand to the truth for my country just like my chief justice David Maragawho was the first in nullifying elections in Kenya.

3. Teacher: I would like to be a teacher of Guiding and Counselling for both young and old. I would like to enhance both the girl child education and to teach the danger of (FGM). Female Genital Mutilation and other cultural believes that are dangerous in our lives.

F: ESSAY AND MOTIVATION.

Please imagine you are celebrating your 60th birthday together with your family and friends. The atmosphere is very friendly, suddenly your grand-daughter jumps on your lap and asks you the following question: "Grandfather / Grandmother, what have you done in your life?" use space provided below.

I was born in a family of three. I was born and grew up in a village called Kibira. I had a poor background which I thought nothing good would come from it. There I passed through a hard life. Though I had a poor background, whatever I did, I was doing it with all my heart. This was seen when my KCPE results were released. I scored 381 marks. Those marks were beyond my expectation. Immediately I started being very worried and wondering where my mother could get the fees for my four years. It is through shofco that I heard the Aiducation international organisation. I filled the application form and in three weeks I was taken by Aiducation international who stood for my school fees. Then through my highschool I promised myself to work hard so that I could achieve my dream career which was being a doctor. After the four years I did my KCSE and got an A. I joined Kenyatta university to study medicine. I passed many challenges but I did not let them get through me. With six years of learning I was qualified being a doctor. I was the first doctor to recognise the cure of HIV/AIDS. Look at the orphanage, the schools and the plantations they have brought employment in our community thus improving people's living standards. I built an hospital that offered free of charge to my patients. I came up with an idea of rehabilitating youths on drug abuse and organisation of enhancing a girl child education. Really if it were not for the Aiducation international scholarship I could have not achieved my dreams. So my grand-child your ambition and the decisions you make matters alot in your life.
